

Transfer Credit Program

Nicolet Area Technical College
Business Management
Associate Degree

Students with a Business Management associate degree from NATC are admitted with junior standing into MSOE's Bachelor of Science in Management (BSM) program.

Admission Requirements

While technical college graduates receive full credit for their associate degree, MSOE has requirements for admission into the 2+2 program. These include:

- successfully completing all courses in the respective associate degree program with a grade of C or better in each course;
- successfully completing all other specified or core courses, with a grade of C or better in each course;
- and meeting the MSOE admission requirements for transfer students into the Bachelor of Science in Management 2+2 program with a cumulative GPA of 2.75 or greater for full acceptance, or with a GPA of 2.50 up to 2.75 for acceptance on probationary status.

In addition, MSOE requires that students complete at least 50 percent of the credits in a degree program at MSOE. The maximum percentage of a program's credits that a student can transfer is 50 percent. Because the BSM 2+2 program is a degree completion program, students awarded junior status upon admission are considered to have the maximum number of transferable credits.

Financial Assistance

Full-time transfer students are eligible for up to \$8,000 in scholarship support, depending upon grade point average. In addition, MSOE has other scholarships and financial assistance programs available.

Degree Completion

A minimum of 101 quarter credits must be completed at MSOE. In determining equivalent credits, one semester credit is the equivalent of 1.5 quarter credits. The minimum requirement is equivalent to approximately 67 semester credits.

To meet MSOE's general education requirements, Rader School of Business curriculum requirements, and the requirements of accrediting bodies, students entering the 2+2 program should have completed the following coursework:

MSOE Core Courses	NATC Recommended Courses
Written Communication	10-801-195*
Technical Report Writing	10-801-197*
Speech	10-801-196*
Macroeconomics	20-809-287*
Microeconomics	20-809-291*
Microcomputer Business Applications	10-106-130*
Business Law	10-102-120*
Humanistic Studies (two courses)	10-809-197, 10-809-199, or 200-level courses*
College Mathematics (excluding business statistics)	10-804-195*
Natural Science (two courses including one lab course)	Courses evaluated on a course-by-course basis

* 200-level courses are preferred. Substitute courses must be approved by MSOE.

Academic Quarters

The primary academic year at MSOE is divided into three 11-week quarters, September through May. Courses are also offered during the summer (4th quarter). MSOE's 11-week academic quarters provide students an advantage because they have the opportunity to take more courses per year than is possible in a typical 16-week semester. The following graphic illustrates this advantage:

Classes are held daytime, evening, and some are available on Saturdays, or by Internet Hybrid delivery. It is possible for a student to complete the entire program by attending part-time during the evening. Classes are available at the downtown Milwaukee campus and at outreach locations in the Fox Valley area and Brookfield/Waukesha.

Following is the suggested curriculum a student would follow at MSOE:

MSOE Bachelor of Science in Management
Sample Curriculum Track for NATC Business Management Degree

MSOE Core Courses		Credits
MS-184	Computer Applications	3
